

AZIZUR RAHAMAN Software Engineer (Python)

Badda, Dhaka — +880 1567847849 — aboutazizur@gmail.com — [GitHub](#) — [Portfolio](#)

Summary

Software Engineer with **2+ years** of experience in full-stack development using **Django REST Framework, FastAPI, React, and SQL**. Skilled in **Docker and AWS**, with a strong background in building scalable, secure, and production-ready applications.

Work Experience

Back-End Lead — Betopia Group

May 2025 – Present

- Leading backend development for multiple client projects including e-commerce and management systems.
- Architected scalable REST APIs using Django REST Framework for web and mobile applications.
- Deployed production-ready solutions using Docker, AWS, Hostinger, and Nginx.
- Collaborated with front-end and UI/UX teams to deliver high-performance products.

Front-End Developer — FreeEcom

Feb 2024 – Jan 2025

- Developed responsive user interfaces using React.js and modern CSS frameworks.
- Collaborated with backend teams to integrate APIs and deliver seamless user experiences.

Front-End Developer (Intern) — YES TO PEOPLE

Nov 2022 – Jan 2023

- Collaborated with the internal team to design and develop the company website.
- Implemented responsive UI components and improved overall user experience.

Skills

Languages: Python, TypeScript, C++ (Used for problem solving), Java (Used for OOP)

Frameworks: FastAPI, Django, Django REST Framework, React.js, Next.js

Payments & Integrations: Stripe, HitPay, SSLCommerz, **AI/ML**, Webhook, Sendgrid, Brevo

Tools & Databases: PostgreSQL, Celery, Redis, WebSockets, Git/GitHub, VS Code, Figma

DevOps & Cloud: Docker, AWS (S3, EC2, IAM, RDS), DigitalOcean, Nginx, PM2, Linux, DNS

Achievements

- **ICPC Dhaka Regional participant** — [Rank 199 \(2024\)](#) & [Rank 144 \(2025\)](#)
- **HackerRank Intermediate Problem Solver** ([Certificate](#)).
- **Solved 600+ problems** — across [Codeforces](#), [CodeChef](#), [LeetCode](#), and [HackerRank](#) ect.
- **Received the Most Improved Programmer Award** — Intra-University Programming Contest 2023.

Education

Bachelor of Science in Computer Science & Engineering — [University of Scholars](#)

Oct 2025

Projects

Neuropsychological Assessment Platform (Web)

[Video](#) — [GitHub](#) — [Live](#)

- Built a secure web platform for 30+ neuropsychological diagnostic questionnaires with multilingual support.
- Implemented complex scoring logic with 10+ calculations per questionnaire, auto-converting results into 4 standardized output categories.
- Designed unique shareable patient links for completion with real-time progress saving and resume capability.
- Built role-based admin dashboard for clinicians to manage patient profiles and questionnaire assignments.
- **Tech:** *Django REST Framework, Next.js, PostgreSQL, Celery, Unfold Dashboard, AWS (EC2), Docker*

Travel Agency Booking System (Web)

[GitHub](#) — [Live](#)

- Built hotel room + tour package booking with availability, booking lifecycle, and confirmation flow.
- Integrated multi-payment checkout and secured API endpoints for booking operations.
- **Tech:** *Django REST Framework, PostgreSQL, Celery, Redis, Hostinger, Next.js, Docker*

Company Ecommerce ERP Management System

[Video](#) — [GitHub](#) — [Figma](#) — [Live](#)

- Architected modular ERP backend with 13 operational modules (Employee, Sales, Delivery, Sanitizer, etc.) supporting 33 distinct user role-based access control and dynamic permission assignment system.
- Integrated module-wise business logic ensuring isolated, scalable, and maintainable service boundaries.
- **Tech:** *Django REST Framework, PostgreSQL, Celery, Redis, Unfold Dashboard, AWS, Docker*
